

50th Anniversary Brunch Sponsorship Brief

Who We Are

ACW has been serving the community since 1974 with gender responsive, culturally inclusive trauma informed evidence based programs. We are a fully certified (3.1+3.5 & 2.1+1.0) behavioral health care center committed to saving the lives of women fighting substance addiction. Our staff works tirelessly to keep pace with the latest treatment methods and certifications. Our international CARF accreditation acknowledges our ability to operate a nonprofit at the highest level for behavioral healthcare organizations. We are a 501(c)(3) non-profit organization dedicated to helping women overcome addiction with the ability to provide housing, counseling, and lifetime support. Many of our residents transition to our in house treatment program after incarceration. For half a century, ACW has transformed the lives of women in Los Angeles through a safe, structured, and gender-responsive treatment program to a substance-free life.

What Are We Celebrating?

This October, ACW will be celebrating 50 years of helping over 15,000 women become and stay sober. We are marking the occasion with a very special brunch celebration to introduce ACW to a high level group of entertainment, political and business insiders as well as past and current program participants. Our goal is to start off our 51st year with increased awareness so that we can build our fundraising efforts to increase our capabilities to care and support women in need. Our future goals include procuring an additional residence to be able to provide a transitional sober living space that will give our program participants the best opportunity for success.

How Can You Help?
